

THE **HIPPITY HOPPER™** GRAVEL HOPPER

Another in a long line of dependable, performance-proven products designed to save time, money and improve safety.

Set on a roof top the HIPPITY Hopper™ can be loaded with ballast or pea gravel witch can be easily dispensed into a wheel burro, making spreading onto a roof top safe and easy! Up to 3 times faster than conventional conveyer systems and the HIPPITY Hopper™ can be easily transported. The ultimate setup for any roof installation.
